

Please do not repeal the Do Not Call list. We do not want telemarketers calling us at home. Ever. It has been so nice since Wisconsin had the do not call list in effect. Please make it permanent. We both answer alot of phone calls during the day for our work. Our home is the only peace and quiet we can get and do not want the phone ringing. Thanks. They can mail us information and we will consider it at our leisure, and hopefully help the Post Office as well.
